EDITOR'S DESK

Symposium (ESTA-2018) Papers

An international conference on 'Emerging Trends in Spectroscopic techniques and their applications (ESTA)' was organized by University College for women, Koti, Hyderabad on 3rd and 4th December 2018. There were four technical sessions devoted for recent advances and state-of-art of spectroscopy-applications in this meet arranged by Dr. K. Premalatha, Head of Chemistry Department as convener. Two experts from Taiwan and six eminent scientists in India delivered invited talks and around one hundred researchers presented posters highlighting their recent research outcome. This was a mile stone in promoting interest in scientific research among post-graduate students in the city.

The full papers received at conference desk and later were peer scrutinized by Journal of Applicable Chemistry. The accepted manuscripts have been spread in this and May issues of the current year. The editorial board appreciates Dr.G. Kishore for the follow up and coordinating editorial chores of this symposium papers. We are grateful for expert chemists to referee the manuscripts of this science-meeting.
